

It can be scary when
someone is seriously hurt or
very, very sick.

This book will show you
what to do when you need
help fast.

In an emergency,
you can call
911
and
get help!

If you see a
car crash,
call 911

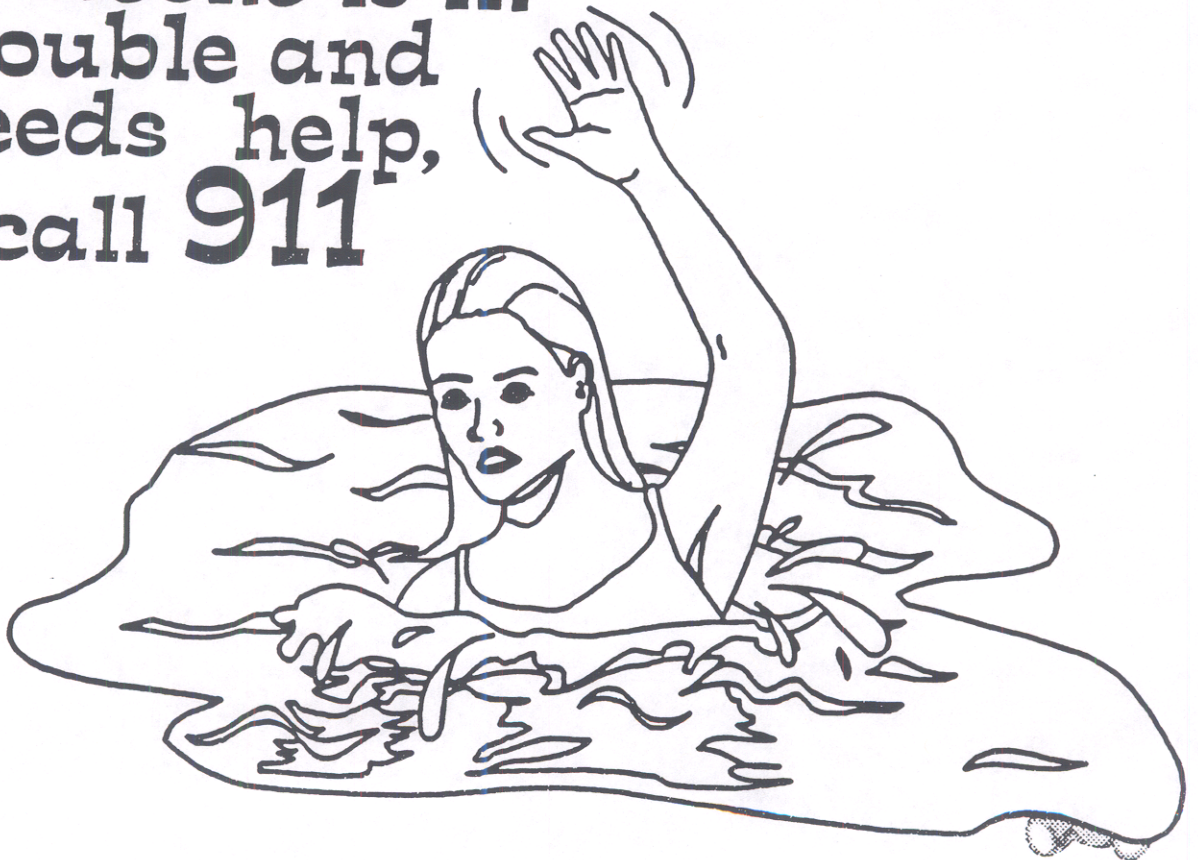

If you see that
someone is
choking
or needs
a doctor...
call 911

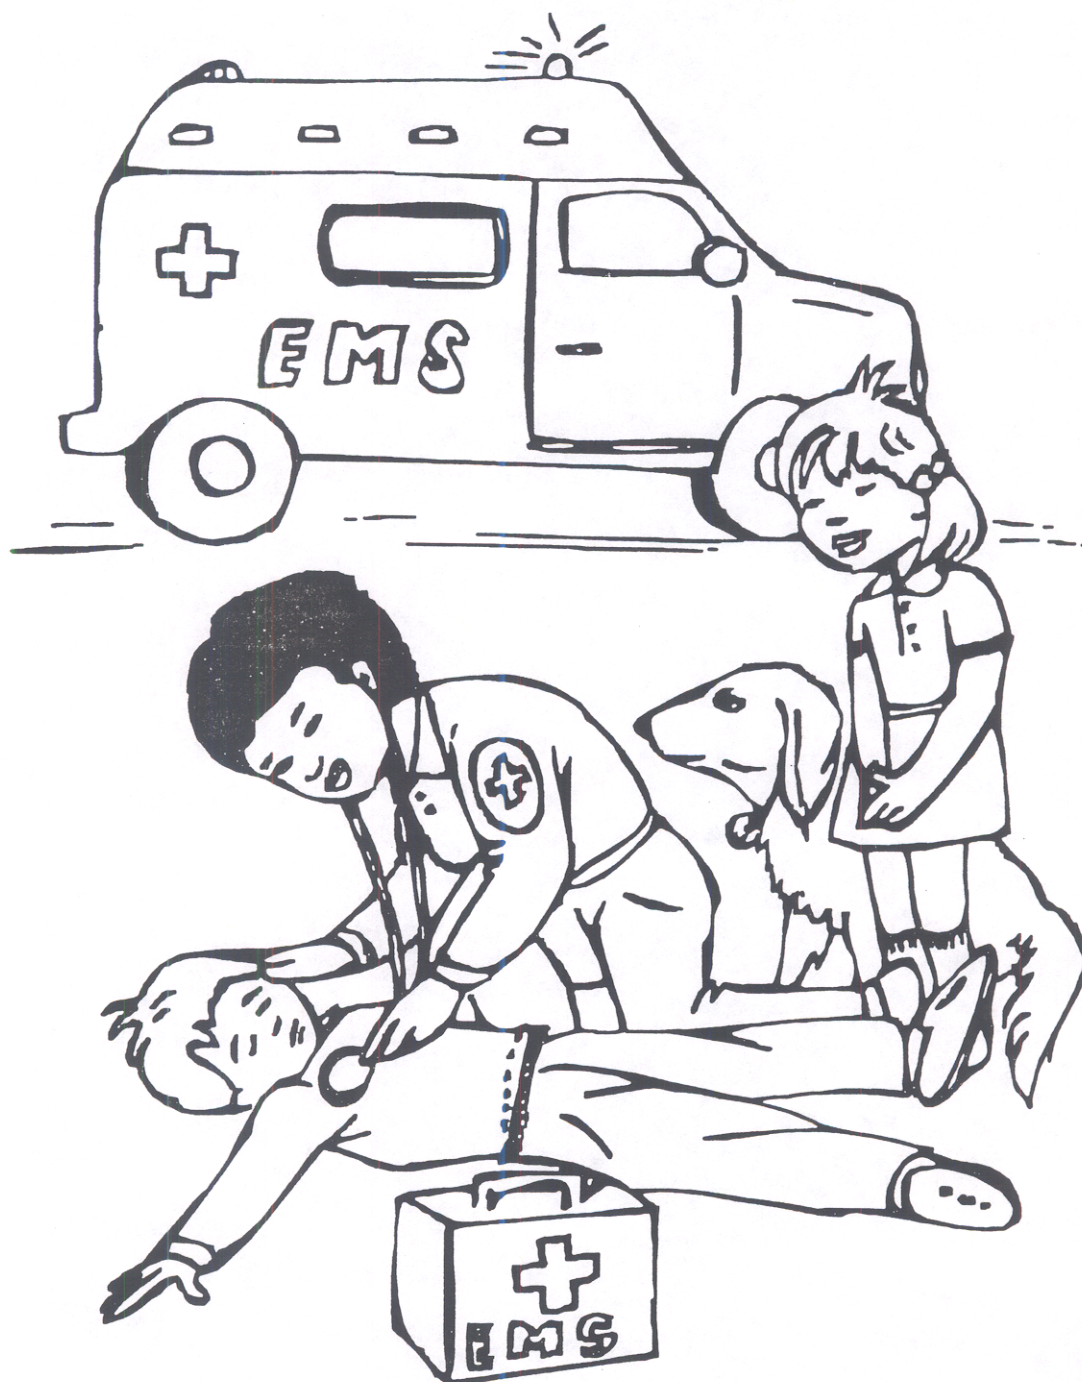

If you see
someone who is
hurt, call
911

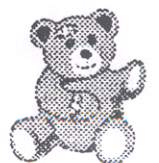

If someone is in
trouble and
needs help,
call **911**

After you call 911 and
answer all the questions the
911 operator will send help.

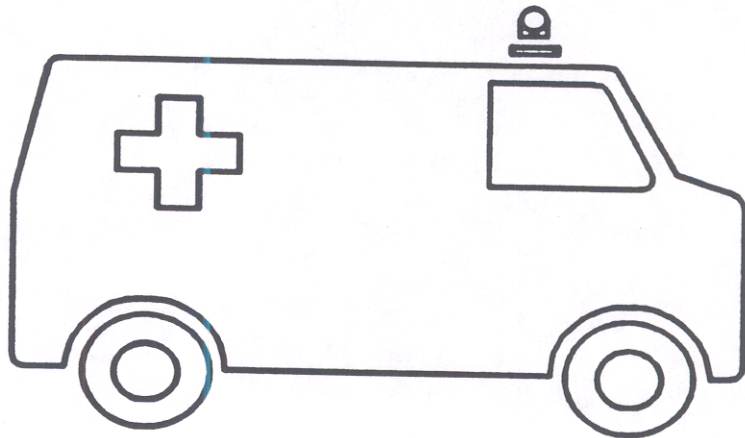

If someone needs extra care,
doctors and nurses wait at
the hospital to help.

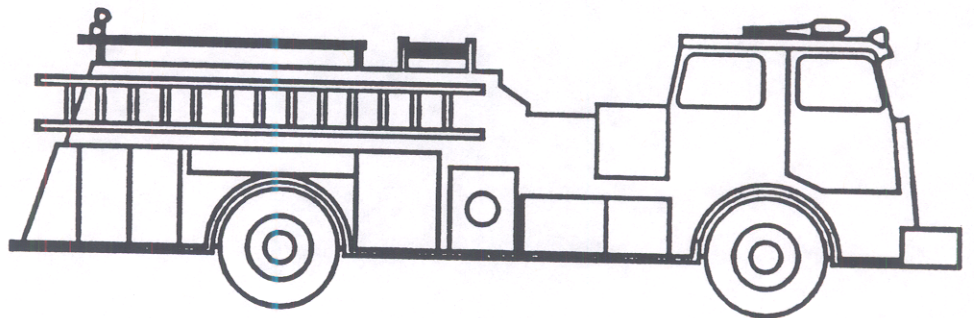

Match the 911 helpers by drawing a line to how they would come to help you.

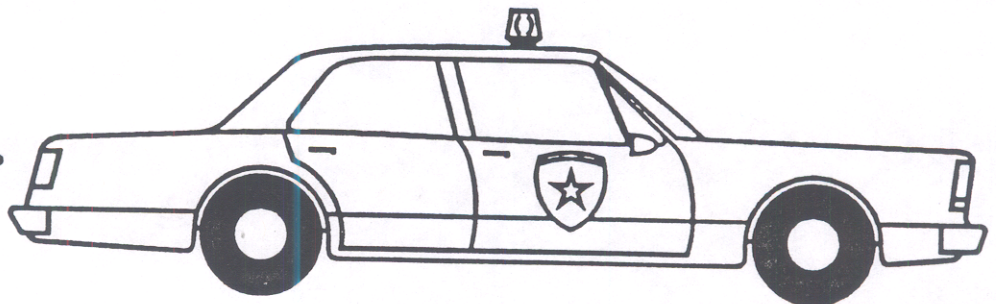

Police
Officer

Paramedic

Firefighter

What to do in an emergency.

After you call 911, you will be asked questions.
Pretend you are at home with an emergency and
practice filling in the answers to the questions.

What happened?

What is your name?

Hello, my brother Joe just fell off a
ladder and is hurt.
We're at 300 South Main Street.
My name is Amy and this phone
number is 555-6835

What is the
address you
are at now?

What is the
phone number
where you are
at now?

REMEMBER:

Call 911

only in an Emergency
